**Delta Aquaduct is a drainage channel which acts as a perimeter conduit bedded in at the floor/wall angle.**

Where appropriate, it can be laid under the slab to take off ground water to a sump or soak away and reduce floatation pressures from being on the slab. Designed for long life and maintenance-free service in even the harshest environments. Tough and durable with exceptional resistance to abrasion and cutting for use on a wide variety of ground conditions. No corrosion or scaling. Resistant to heat, fuels, chemicals, UV, ozone, weathering, hydrolysis and microbiological attack. No contamination of drinking water supplies.

# PRODUCT DATA SHEET

## AQUADUCT DRAINAGE PIPE

Product Code: DMS078/DMS085

### BENEFITS

- No corrosion or scaling
- Resistant to heat, fuels, chemicals
- No contamination of drinking water supplies.
- Tough and durable with exceptional resistance to abrasion
- UV, ozone, weathering, hydrolysis and microbiological attack
- Designed for long life and maintenance-free service in even the harshest environments
- Available in 2 sizes, 60mm x 150m and 100mm x 50m

### SPECIFICATION

- Type C Drained Protection in accordance with BS 8102:2009
- NBS Clause R16 Groundwater Pressure Relief Drainage

### ASSOCIATED PRODUCTS

- Delta Pumps
- Delta MS20
- Delta Channel
- Qwik-Seal Plugs
- Delta Plugs
- Sealing Tape
