

PRODUCT DATA SHEET

DELTA MASTIC

Product Code: DMS300-DMS013

Mastic is a acrylic universal mastic, ideal for sealing joints and detailing for structural waterproofing, waterproofing and damp proofing projects.

The product is a black mastic formulation that is used to seal off the flat tab and overlaps between membranes during the installation process. The sealant is also used to seal off any gaps in the membrane created at interior and exterior corner installations where a tight fit may not be possible.
