01992 523 523

Delta Root Block provides robust root barrier protection to primary waterproofing systems covering green roofs, blue roofs, hybrid roofs or where intrusive root systems are present.

BENEFITS

- Acting as a protection layer to primary waterproofing membrane
- Extremely durable and tough
- Suitable for use with newly planted or existing trees and plants
- Reliable and permanent protection
- Easy installation being both flexible and formable

SPECIFICATION

- NBS Specification J40 295A flexible sheet tanking/damp proofing

ASSOCIATED PRODUCTS

- Delta Than
- Delta Floraxx Top
- Delta Terraxx
- Delta NP Drain
- Geo-Drain Quattro

PRODUCT DATA SHEET

DELTA ROOT BLOCK

Product Code: DMS119

TECHNICAL DATA

Material	Polyolefin
Colour	Black
Surface	Chequered, rough
Rough Weight	approx 280 g/m ²
Thickness	0.4mm
Roll Size	25m x 4m
Resistance	Compatible with bitumen
Water Column	4m, 72h
Tensile Strength	Longitudinal 150 N/S cm Transversal 100 N/S cm
