**A Puddle Flange is a waterproof seal for when a pipe passes through a slab to prevent water ingress.**

A puddle flange is recommended to prevent ground water percolating through the slab between the 110mm pipe work and RC slab and reduces charge on the Delta floor membrane. Delta can provide this in various sizes from 32mm up to 160mm.

### BENEFITS

- Prevents water ingress
- Comes in various sizes from 32mm up to 160mm
- Seals penetrations through new RC structures

### SPECIFICATION

- Type C Drained Protection in accordance with BS 8102:2009

### ASSOCIATED PRODUCTS

- Delta Dual Sump V3
- Drainage Pipe
- Delta MS20
