Delta Rope is a dependable product used for the sealing Delta Plugs which do not have grommets to waterproof membranes.

Delta Rope is ideal for sealing joints in MS20 and in stud to stud joints in other membranes within the Delta range of Type C Waterproofing Systems. Available as a 4.75m roll.

BENEFITS

- To seal around services and penetrations
- Used to join sections of plastic membrane
- To form a waterproof seal around fixing plugs that are not already pre-sealed

SPECIFICATION

- Type C Drained Protection in accordance with BS 8102:2009
