

Delta Training Course Waterproofing Podium Decks, Buried Roofs, Balconies and Terraces

COURSE DESCRIPTION

Podium decks, buried roofs, balconies and terraces all must withstand the comparable combined stresses imposed due to being both externally exposed and trafficked. The devil is in the detail - our training course focuses on suitable and appropriate use of materials and to offer comprehension on why details are so important in waterproofing design, along with installation techniques.

HOW WILL THIS BENEFIT ME?

Delegates will develop design and build philosophies for correct product selection and installation success.

WHO CAN ATTEND THIS COURSE?

Anyone who works within the environments of design, planning and installation of any external structural waterproofing projects. Anyone wishing to expand their overall knowledge of external waterproofing and wishing to have a better understanding of BS 6229:2018, NHBC Chapter 7.1:2010 and BS 8102:2009.

LOCATIONS

Delta HQ, Epping
North of England

COURSE DURATION

9.30 am start – 4 pm with lunch and refreshments provided.

COURSE INSTRUCTORS

Delta Technical Team & Guests.
